ABOUT THE INSTITUTION

St. Joseph's Institute of Technology, founded by the St. Joseph's group of institutions in 2011 is a Christian minority institution with six UG streams including: CSE, ECE, EEE, IT, MECH & CIVIL. The college has the finest infrastructure with well-equipped laboratories, and classrooms. The students are provided exceptional academic ambience by virtue of the preeminent faculty.

Our college, being one of the leading engineering colleges, focuses on inculcating not only knowledge but also good ethics in the budding engineers of future India. This is essentially the crux of St. Joseph's Institute of Technology.

CONFERENCE THEME RECENT TRENDS IN ENGINEERING AND TECHNOLOGY

This is the second National Conference taking place in the campus of St. Joseph's Institute of Technology. The primary goal of the conference is to promote research and developmental activities, in the recent trends of engineering and technology. It also helps to unite the great minds who believe in the need for a technologically literate society. This conference, on the Recent Trends in Engineering and Technology promises enormous potential to stimulate educational opportunities to the researchers, academicians and postgraduate students. It is a powerful tool for the educators to interact with their peers, share knowledge and ideas. It also offers innovative technical resources to support professional learning for educators and education leaders.

Topics of interest for submission includes, but not limited to:

CSE/IT

- Cloud Computing
- Grid Computing
- Soft Computing
- Big Data
- Mobile Computing
- Computer & Network Security
- Data/Text mining
- Internet Information Systems & Technologies
- Semantic Web & Web Services
- Cluster Computing
- Open Source Technology
- Cyber Crime and Security
- AI & Expert-System

ECE

- Coding Theory & Cognitive Radios
- Array Signal Processing
- Image/video&Speech/Audio Processing
- Wireless Communication
- Next Generation Networks
- Biomedical Systems/Biological Networks
- RF/Microwaves/Antennas
- Optical Communication
- Adhoc and Sensor Networks
- Smart Grids/Green Technology
- DSP Algorithms and Architectures
- VLSI and Embedded Systems

EEE

- Renewable Energy Sources
- Power System Stability and Control
- Power Quality
- Embedded Systems
- Special Electrical Machines
- Converters and Inverters
- Network Harmonics
- Power System Design

MECH

- Fluid Mechanics
- Recent Trends in Automobiles
- Fracture Mechanics
- Waste Management
- CAD/CAM/CAE
- Advances in Manufacturing Technology
- Environmental Engineering & Energy Resources
- Quality and Reliability Engineering
- Reverse Engineering
- Dynamic Mechanical Analysis, Optimization and Control
